

PWCE - CCA GRADER

This attachment is limited only by the end user's imagination. There is any number of possibilities for this attachment. Any category of 3-point hitch attachments or skid steer quick coupler attachments can be used with the Construction-Carry-All (CCA). This system allows the operator to hook up various attachments and switch drive units with little effort.

- Snow Removal

PWCE is proud to introduce its latest innovative, economical and versatile attachment. The PWCE Road Drag is an attachment that can fit several different types of drive units (trucks & tractors). It also can pitch from side to side, front to aft, and can have pressure applied to the front hitch. This can not be done with a conventional road drag. The PWCE Road Drag is also equipped with quick change 4x6 angle blades.

Features:

- Quick change 4x6 angle blades.
- Versatile enough to get jobs done quicker.
- Able to be hydraulically controlled from within the cab of your truck.
- 3-dimensional plane adjustment.
- Fits most vehicles with little effort.
- Easy hook-up and control.

Paul Wever Construction Equipment is dedicated to product support for the construction equipment industry. We provide owners, operators, and dealers with solutions to their problems. If you have a need for engineering services, new product development, or current product support, please call us.
