

HIGH REACH DEMOLITION SYSTEM

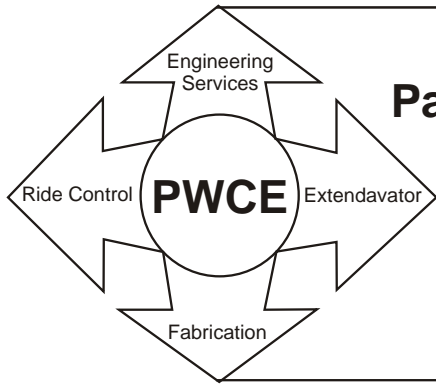

It brought down a five story building with no problems!

www.pwce.com

The High Reach Demolition System is made up of a 20' PWCE Demolition Extendavator and a PWCE Demolition Dipper. This special two stick design allows the operator to reach up to 5 stories (70 feet) with a 100,000 lb. class machine. No extra counterweight was required. That's right, 70 feet of reach and no extra counterweight. Paul Wever Construction Equipment is dedicated to helping companies find ways to do their jobs more efficiently and safely. When a customer is in need of an innovative solution to a problem. PWCE is not afraid to try something new.
